## ABOUT JU & MIKE

JU & MIKE is a leading Engineering, Procurement, and Construction (EPC) contractor specializing in the development of oil storage terminals and related infrastructure. We deliver – end-to-end solutions, covering project lifecycle stages from concept design and FEED to engineering, procurement, construction, and handover.

### Construct of many expertise:

- Construction of atmospheric and pressurized storage tanks.
- Pipelines and pumping networks.
- Oil, gas, and petrochemical plants.
- Industrial structures, warehouses, and steel fabrication.
- Road tanker and trailer production.

### Strong Regional Backing

Supported by a UAE-based parent company with over two decades of engineering excellence.

### Proven Industry Expertise

Extensive experience in EPC, industrial engineering and turnkey project execution.

### Trusted Local Partnership

Strategic collaboration with JU & Mike Group ensures deep local market understanding.

### Regulatory Compliance & Support

Strong operational framework aligned with Pakistan regulations and standards.

# DR. MOAZAM WAHEED BUILDING SMARTER INDUSTRIES THROUGH ENGINEERING EXCELLENCE

JU & MIKE continues to lead the EPC sector with cutting-edge solutions in mechanical engineering, fabrication, construction, and AI-integrated project management for the future of industrial development.

## Our Mission & Vission

### Vission:

To be the trusted partner for engineering and industrial solutions, recognized globally for delivering integrated, compliant solutions that consistently exceed client expectations, setting the benchmark for quality and compliance worldwide.

### Mission:

Our mission is to drive continuous improvement and innovation across all facets of our operations—processes, people, planning, products, and work environments—upholding improvement as an essential discipline, not merely an objective.

### Our Values:

- ⊗ Hard Work
- ⊗ Transparency
- ⊗ Sharing
- ⊗ Cooperation
- ⊗ Honesty
